LANDMARK GLOBAL EXPORTS NEW CHINA EXPORT ORDER – DAIRY HEIFERS

Landmark Global Exports Pty Ltd (LGE) is now buying dairy heifers for its next China shipment. The following protocol for the conditions of selection and subsequent purchase of cattle for shipment to China is outlined below.

Selection period: now until completion.

Delivery date: TBA

Final delivery date will be advised closer to departure date. Vendor to bear all delivery costs. Delivery will be to Quarantine centre to be advised.

Type: Unjoined Holstein Friesian heifers aged 9 – 15 months at date of selection with a minimum live weight of 200kg plus at the time of delivery to feedlot.

The conformation and appearance of the animals should be typical of the breed (Holstein Friesian). All heifers must have the correct pedigree information to allow data to be registered with the ADHIS system.

All cattle must be NLIS tagged at selection.

Price: \$950 – \$1050 + GST. All prices will be negotiated by LGE (or by agents where directed). Prices are based on type and quality.

On-farm selection

An on-farm selection process is part of the pre-approval system to determine eligibility. At on-farm selection the following information must be available:

1. Minimum herd test: Dam milk production: 5,500 LT, Protein: 3.0% Fat: 3.5%.

Please have your milk statement or herd test statement to demonstrate the above figures (please have a copy of the milk statement for LGE to retain at selection).

2. Heifer pedigree record.

Farmers should be encouraged to draft cattle into similar weight and quality lines prior to selectors arriving to assist in 'group buying' of cattle.

For more information please contact your local Landmark agent.
